📇 PROFILE

I am an experienced and dynamic Full Stack Web Developer with a passion for crafting innovative and user-centric digital solutions. Proficient in a wide range of programming languages and frameworks. I thrive in collaborative environments where creativity and technical expertise converge. With a track record of delivering high-quality projects, I am dedicated to pushing the boundaries of web development to create seamless and captivating user experiences. Eager to contribute my skills and drive for excellence to make a meaningful impact in the digital world.

💼 PROFESSIONAL EXPERIENCE

iBit Soft LTD, Full Stack Developer(Internship)
Accra, Ghana

Developed an intuitive e-menu project during my internship, collaborating with a talented team. Demonstrated expertise in front-end technologies for delightful user interactions and back-end proficiency for efficient data management and real-time updates. Proven problem-solving skills, attention to detail, and on-time project delivery.

iBit Soft LTD, Full Stack Developer(Full-Time)
Accra, Ghana

Developed innovative web applications as a Full Stack Web Developer, utilizing front-end and back-end technologies to create seamless functionality. Collaborated with cross-functional teams to design, implement, and maintain projects, showcasing strong problem-solving skills and attention to detail. Stayed up-to-date with industry trends to optimize processes and drive continuous improvement, contributing as a valuable and trusted member of the development team.

📁 PROJECTS

CSS-CODE GENERATOR 🔗
Developed an innovative CSS-code generator, incorporating a powerful visual editor to enable users to create custom designs effortlessly. Utilizing an event-driven approach, I ensured a smooth and interactive user experience. The project's highlight lies in its dynamic animations and transitions, which posed intriguing challenges and sharpened my skills as a Full Stack Web Developer. Additionally, the inclusion of an image editor further enriched the application, providing users with comprehensive design capabilities.

Fiverr, Full Stack Developer(Freelancing)
Before securing a full-time position, I thrived as a freelance Full Stack Web Developer on Fiverr. Delivered high-quality web solutions and specialized in web scraping projects. Earned accolades for meeting deadlines, clear communication, and surpassing client expectations.

🎓 EDUCATION

BS. COMPUTER SCIENCE, UNIVERSITY OF CAPE COAST(UCC)
Cape Coast, Ghana

West African Senior School Certificate(WASSCE)-GENERAL SCIENCE, AKATSI SENIOR HIGH TECHNICAL SCHOOL
Accra, Ghana

🏅 AWARDS

Sum of 1,000 Ghana Cedis for emerging winner of Regional Level of National Science and Math Quiz Competition, Primetime LTD

Hospital Management System - Collaborative Team Project
Contributed to the development of a comprehensive Hospital Management System as part of a dynamic team in my company. As a key member, I demonstrated strong teamwork skills while collaborating on the largest project I had ever participated in. From a technical standpoint, my expertise in CRUD operations enabled seamless data handling and processing. However, the real challenge arose from the design aspect, where I took charge of creating an intuitive and user-friendly UI/UX, particularly for complex long forms. My dedication to optimizing the system's design resulted in a streamlined user experience that enhanced efficiency and usability, making a valuable impact on the success of the project.

CODERS NATION - Interactive Web Development Practice Platform 🔗
Designed and developed "Coders Nation," an innovative web application that empowers aspiring developers to hone their skills in HTML, CSS, and JavaScript. By providing users with real-time coding environments, I created a dynamic and immersive platform for practice and learning. Utilizing my expertise in front-end technologies, I ensured a smooth and intuitive user interface that allowed seamless code editing and execution.

COVID-19 LIVE UPDATE WEB APP 🔗
Developed a COVID-19 Live Update web application, utilizing React, Material UI, and CSS to create an immersive user experience. The app featured an interactive graph for data visualization, enabling users to gain valuable insights into the pandemic's trends and impact. Overcoming challenges associated with real-time data integration and visualizations, I successfully crafted a user-friendly platform that provided up-to-date information and fostered awareness during the global health crisis.

PORTFOLIO WEBSITE FOR A FRIEND 🔗
Crafted a stunning and personalized portfolio website for a friend, leveraging React, Material UI, and CSS to showcase their unique talents and achievements. Employing a user-centric design approach, I ensured seamless navigation and an engaging user interface to highlight their work and accomplishments effectively. The integration of Material UI components added a touch of elegance, enhancing the overall aesthetic appeal of the website. Collaborating closely with my friend, I brought their vision to life, resulting in a captivating online presence that left a lasting impression on visitors.
